

Using the PSS-610-06 1stVision Power Supply With Various Industrial Camera Models

The PSS-610-06 switching power supply is compatible with many different industrial camera models in the industry that incorporate a Hirose HR10A-10R-12PB-01 connector in its design, with Pin 1 designated as Ground, and Pin 2 designated as +12VDC. The PSS-610-06 power supply offers the following performance characteristic:

Input: 100-240VAC, 50/60Hz, @0.5A max.

Output: 12VDC @ 1.5A

12-pin Hirose Pinout:

PIN No.	
①	GND
②	+12 V
③-⑫	OPEN

To use this power supply with any industrial camera incorporating a Hirose HR10A-10R-12PB-01 connector in its design, with Pin 1 designated as Ground, and Pin 2 designated as +12VDC, simply connect the power supply's Hirose connector into the back of the camera using the click-to-lock mechanism, and plug the power supply into any 100-240VAC, 50/60Hz, 0.5A outlet. Power is then applied to the camera.
